PROFESSIONAL SUMMARY

Motivated **Full-Stack Web Developer** seeking to contribute to a collaborative engineering team by building reliable, user-focused web applications and continuously improving through real-world challenges. Committed to writing clean, maintainable code, solving problems efficiently, and creating meaningful digital solutions that support business growth while advancing my skills as a software engineer.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, Next.js

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication.

Database: MongoDB, Mongoose.

Tools & Platforms: Git, GitHub, Vercel, Render.

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability.

PROJECT

ArtHub | Full-Stack Art Marketplace — [Live](#) | [Client GitHub](#) | [Server GitHub](#)

Description: Developed a scalable full-stack art marketplace that enables artists to showcase and sell artwork while providing secure purchasing, subscription management, and role-based administration for buyers, creators, and administrators.

Key Features:

- Implemented **role-based authentication and authorization** using Better Auth/JWT with secure protected routes.
- Developed a **creator/admin dashboard** for artwork, subscriptions, purchases, and platform management.
- Integrated **Stripe payments** and built scalable RESTful APIs with MongoDB for secure data management.

Tech Stack: Next.js, React.js, Tailwind CSS, Node.js, Express.js, MongoDB Atlas, Better Auth, JWT, Stripe, imgBB.

DocAppoint | Full-Stack Doctor Appointment Platform — [Live](#) | [GitHub](#)

Description: Built a full-stack healthcare appointment management platform that streamlines doctor discovery, appointment scheduling, and role-based healthcare services through secure authentication and personalized dashboards.

Key Features:

- Implemented **JWT & Google OAuth authentication** with protected routes and role-based dashboard access.
- Developed **appointment scheduling and management** workflows with real-time status tracking for patients and doctors.
- Built scalable **RESTful APIs** with MongoDB for managing doctors, appointments, and user profiles.

OTHERS WORK EXPERIENCE

Business Coordinator | Wholesale Shop BD, Dhaka (Jan 2025 – Jul 2025)

Coordinated product operations, vendor communication, and workflow management for a B2B platform, contributing to improved operational efficiency and customer support processes.

Enumerator (Field Team Lead Responsibilities) | UNHCR, Cox's Bazar (2018–2019)

Led field teams in data collection, GPS mapping, and biometric registration projects while ensuring data accuracy, operational compliance, and high-quality documentation.

EDUCATION

Bachelor of Science (B.Sc.) in Civil Engineering

Stamford University Bangladesh | 2024

COURSEWORK (Programming Hero) | 2026

Responsive Web Design, Modern JavaScript (ES6+), React.js, Next.js, Node.js, Express.js, MongoDB, RESTful APIs, Authentication, Full-Stack Web Development.

LANGUAGES: Bangla — Native | English — Conversational | Hindi — Basic Understanding.
